

Title: Environmental Manual

1. Environmental Policy

- 1.1. The management of Talbot Plastics Ltd is committed to managing its operations in an environmentally responsible way, as part of being a good employer and manufacturer.
- 1.2. To ensure environmentally responsible behaviour is promoted as an integral part of our operations and decision making the following principles will guide all Talbot Plastics Ltd staff to achieve Continuous Improvement in Environmental Performance:
 - 1.2.1. Conduct operations in an environmentally responsible manner and in compliance with all applicable local environmental legislation, regulations and licences.
 - 1.2.2. Establish and maintain achievable standards, objectives and targets for managing the environmental impacts of our products and processes on the environment.
 - 1.2.3. Promote the efficient use of energy where practical throughout our premise, plant and equipment where it is cost effective.
 - 1.2.4. Reduce the volume of waste produced per unit of product where possible.
 - 1.2.5. Maintain a close relationship with appropriate authorities and environmental organisations.
 - 1.2.6. Educate employees to perform their jobs safely and in an environmentally responsible manner.
 - 1.2.7. Regularly set and review environmental objective and targets.
- 1.3. All employees are responsible for contributing to the implementation and success of this policy through their actions and suggestions.
- 1.4. Review of Environmental Policy shall take place at the Annual General Meeting of the Environmental Committee; this shall be a collaborative review between the senior Management and the Environmental Committee itself.
- 1.5. Co-ordination and Management of the Environmental Manual is the responsibility of the Quality Manager.
